Professional Summary

Results-oriented Frontend Developer with expertise in building responsive, user-friendly web applications using HTML5, CSS3, JavaScript (ES6+), React, and Redux. Proven ability to collaborate effectively in diverse teams and deliver high-quality digital solutions.

Technical Skills

- **Languages: HTML5, CSS3, JavaScript (ES6+)**
- **Frameworks/Libraries: React, Redux**
- **Version Control: Git, GitHub**
- **Build Tools: Webpack, Babel**
- **Package Managers: npm, Yarn**
- **CSS Preprocessors: SASS, LESS**
- **Testing Frameworks: Jest, Mocha, Jasmine**
- **APIs: RESTful APIs**
- **Tools: Figma, Browser Developer Tools**
- **Design Principles: Responsive Design, Mobile-First Design**

Professional Experience

Freelance Frontend Developer
Self-employed | Remote
March 2023 – Present

- **Developed frontend architecture for various web applications using React and Redux.**
- **Ensured seamless user experience through implementation of responsive design principles.**

- **Translated design mockups and wireframes into efficient, clean, and reusable code.**
- **Managed codebase and collaborated with clients using Git for version control.**
- **Integrated RESTful APIs to fetch and display dynamic content.**
- **Utilized Webpack and Babel for efficient module bundling and JavaScript compilation.**
- **Conducted rigorous testing using Jest and Mocha to maintain code quality and functionality.**

Education

Bachelor of Information Systems
Victoria University, Sydney
March 2017 – March 2019

Full Stack Developer Bootcamp
Dented Code Academy, February 2024 – Present

Projects

Project Name	Description	Technologies Used	Official Website
Calculator App	**Simple calculator application with memory functionality for basic arithmetic operations.**	**HTML5, CSS3, JavaScript (ES6+)**	**[Calculator](#)**
Portfolio Website	**Personal portfolio showcasing projects with custom animations and responsive design.**	**HTML5, CSS3, JavaScript, React, Redux, Bootstrap 5**	**[Portfolio Website](#)**
Parallax Effect Project	**Visually engaging website with parallax scrolling for enhanced user interaction.**	**HTML5, CSS3, JavaScript**	**[Parallax Effect Project](#)**
Social Media App	**Platform enabling users to create profiles, share posts, and connect, built with React and MongoDB.**	**React, Node.js, Express, MongoDB**	**[Social Media App](#)**

Todo Task Management App	**Task management application facilitating creation, organization, and prioritization of tasks.**	**React, Node.js, MongoDB, Express**	[Todo Task Management App](#)
QR Code Generator	**Application generating QR codes for URLs and text, utilizing Bootstrap, React, and JavaScript.**	**HTML5, CSS3, JavaScript, React, Bootstrap 5**	[QR Code Generator](#)

Certifications

- **Python Crash Course, Wecubetech, September 2023**
- **Git from Scratch, LinkedIn Learning by Morten Rand, April 2024**
- **JavaScript Essential Training, LinkedIn Learning by Morten Rand, June 2024**

Additional Information

- **Availability: Available for full-time employment.**
- **Relocation: Willing to relocate for the right job opportunity.**
- **Languages: Fluent in English and Hindi.**
- **Volunteer Work: Active participant in local coding clubs and community hackathons.**
- **Interests: Passionate about exploring new frontend technologies, contributing to open-source projects, and photography as a creative outlet.**
